ORDER NO.

SUBJECT:

DOCKET NO. 2018-256-S - Application of Carolina Water Service, Incorporated for Approval of a Satellite Sewer System Agreement with the City of Columbia - Staff Presents for Commission Consideration Carolina Water Service, Incorporated's Application for Approval of a Satellite Sewer System Agreement with the City of Columbia.

COMMISSION ACTION:

This matter had been carried over from the previous Commission meeting to allow time for Carolina Water Service, Inc. (CWS) to respond to the letter, dated September 25, 2018, filed by ORS stating that it did not object to the approval of the Satellite Sewer System Agreement if certain conditions were implemented. In a letter dated September 28, 2018, CWS stated that it did not object to the conditions recommended by the ORS. Therefore, I move that the Satellite Sewer System Agreement with the City of Columbia be approved with the conditions recommended by the ORS, specifically:

1. That CWS promptly take all necessary measures to improve and address inflow and infiltration in the Friarsgate collection system such that ratepayers should not pay additional wastewater treatment charges for excessive inflow and infiltration.
2. That the Company be required to report on a quarterly basis the amount of flow measured and billed for the Friarsgate system and the number of active sewer customers.
3. That CWS be required to conduct vacancy surveys that are not entirely reliant on CWS' Customer Care & Billing system at least annually beginning on the first anniversary of the order approving this interconnection request and that the results be reported to the PSC and ORS within 30 days upon completion of the review.
4. That the issuance of an Order in this matter will not preclude the ORS, the Commission, or any other party, from addressing any issue related to this interconnection including but not limited to the reasonableness of the costs, the retirement of assets, inflow and infiltration, and any return sought in a subsequent rate case or other proceeding.
